

The Oak

Console

American White Oak finished with durable semi-matt Osmo wax-oil.

Open frame gives a light, airy feel while rear conduits hide unsightly cables.

Modular construction for ease of transport. With removable table leaves, keystack and pedalboard, these consoles will go up stairs and take up about as much floorspace as a digital piano.

Full size oak bench with ergonomic footrest and curved front edge.

Midi Hardware

61-note Fatar keyboards with simulated tracker touch.

Up to 16 programmable thumb pistons per keyboard mounted on reinforced rails.

Oak pedalboard.

Three oak swell pedals with adjustable tension. Ultra-durable potentiometers.

Five Taylor brass foot pistons.

Two 32-character MIDI information screens. White text on black background (OLED).

Bespoke USB MIDI interfaces built around multiple Atmega32U4 processors.

Audio Hardware

Headphone out socket located underneath keyboard shelf.

Four channel low-latency USB soundcard (Focusrite or Motu).

Optional powered studio speakers.

Touchscreens

Optional 22-inch HD touchscreens - Iiyama monitors mounted on rigid, adjustable stands. Cables run discreetly through stands into table.

Computer

To run Hauptwerk software you'll need a computer with plenty of RAM. Sadly AI has monopolised the supply chain, leading to significant price rises. There are limited second hand options. Please contact me for options.

Software

We can set up your computer for use with the console and include a collection of demo versions of popular sample sets. The client is expected to supply their own Hauptwerk licence for ongoing use. Sample sets are third party products and range in price from free to several hundred pounds.

Power

Built-in remote-controlled power distribution, allowing flexible control of audio and lighting. The remote acts as a key for use in public spaces.

Lighting

Pedalboard and music desk lighting are included.

Delivery

Free within 150mile round trip of Gloucester, UK. Beyond this, mileage will be charged to cover the van rental surcharge. Clients are expected to help with unloading.

Installation

Including assembly, demonstration of Hauptwerk features and tutorial on piston setup.

Warranty

You'll get an initial snag visit should any problems come to light after installation. After this, travel expenses will apply. This warranty does not include 3rd party electronics, accidental damage or malfunction due to mistreatment or wear and tear.

Payment

For private clients a deposit of £1500 will be payable by BACS. Balance on delivery. Institutions will provide a Purchase Order in lieu of deposit.

Lead times

Please enquire for current waiting list estimate.

Delivery will only be arranged on completion of the console.

Overseas purchases

Unfortunately I am currently unable to deliver or arrange freight outside mainland UK.

Dimensions

Height 160cm to top of desk light.

Width 143cm at table height.

Depth 61cm (table) or 90-120cm with pedalboard (depending on pedalboard used).

About

Forest Organs is based in the Forest of Dean near Gloucester.

The aim is to provide high quality instruments that also look fabulous as furniture.

Consoles are typically manufactured using a mix of new and meticulously reconditioned parts.

In this way best value can be achieved without compromising reliability, playability or finish.

Bespoke commissions are welcome. Please email for further information.
